

March 27, 2020

Beginning March 30, 2020, Boys & Girls Club of Frederick County (BGFC) will provide child care for a maximum of 18 children of essential personnel, with a wait list if necessary, during these unprecedented times. We are working with the Maryland State Department of Education, along with other Boys & Girls Clubs across the state, to follow all MSDE and CDC regulations to keep the kids and staff safe. We are proud to be able to provide a safe, fun, and educational space for these children with trained youth development staff while their caregivers are hard at work keeping our community safe and healthy. For more information on how essential personnel are defined and BGFC registration, visit our [website](#).

BGFC's mission is to serve ALL children. While we cannot serve our Club members in person at this time, our team is providing virtual learning experiences on our [website](#) and [YouTube channel](#). These pages are updated regularly and we're introducing new content and resources as they become available on our [Facebook page](#) as well. We miss our members and look forward to the day we can open our doors and welcome them back. Until then, we hope these virtual services bring some of the programs and consistency of the Club experience into their homes.

BGFC could not provide these services for the families of Frederick County without the generosity of our donors. We know these are times of great uncertainty, but we ask you to please consider contributing to the Club so we may keep our staff working diligently to create and deliver these programs virtually until we meet again.
